MEMORANDUM FOR:   
Special Assistant to the DCI for Counterintelligence

FROM:   
Acting Director, Policy Guidance Office

SUBJECT: Input to the DCI Annual Report

1.  Preparation of the DCI's Annual Report for calendar year 1978, due to the President and the Congress by 25 January 1979, is now under way. The DCI has approved a concept for this year's Annual Report which is more selective than last year's, both because this seems more appropriate to a 1978 characterized by attention to key intelligence issues rather than the comprehensive report approach used for 1977 as a year of extensive community restructuring, and also to limit length for a busy reader to a manageable 30-40 pages (last year's ran 80 plus). The DCI has also approved an outline for this year's report (Attachment 1). Part I is designed to allow the DCI to highlight the particular characteristics and emphases of 1978 in intelligence; Part II is intended to air several issues of great importance to him, his key Executive users, and the Congress. The Annual Report will carry a high classification and receive extremely limited distribution.

2.  Additionally, in a 15 September 1978 letter to the DCI discussing content of the DCI's Annual Report generally (Attachment 3), Chairman Boland of the HPSCI included a list of six special subjects to be covered in this year's Annual Report. In an interim response the DCI has agreed to provide this information. HPSCI request number 2. is: "A comprehensive statement with specific instances of foreign intelligence activities against the intelligence community organizations and corrective action taken by the FBI, the CIA, NSA and the Military Services." We would appreciate it if you would take the lead in staffing out a request for data pertinent to answering this request with CIA, the FBI, NSA and the Military Services, and in fashioning their inputs into a comprehensive statement with specific appropriate instances. Depending on length and other considerations, we can then either incorporate it into the body of the DCI's Annual Report or note highlights and append your full report to the HPSCI's copy of the Annual Report.

3.  You will note that the subject matter of this HPSCI request and sections 1, Espionage, and 4, New directions in the foreign counter-intelligence program, overlaps. We would appreciate your organizing CIA and

community (as appropriate) comment and input for these two Annual Report sections. Specifically:

a. What have been the principal characteristics of known foreign espionage against the US Government and its intelligence organizations and programs in 1978, especially noting level and sensitivity of access? What in particular appear to be the ramifications and implications of the Kampiles case?

b. What should be the DCI's position with the President and the Congress on possible "moles" in US intelligence or elsewhere in sensitive parts of the US national security and foreign affairs apparatus?

c. Please comment on your role as SA/DCI/CI, your objectives, priorities and highlights of your work to date.

d. Please comment on important characteristics or new directions in the foreign counterintelligence program generally, including the SCC(CI). Specific overview comments on the nature and progress and constraints of the FBI's foreign counterintelligence program would be especially helpful, as the HPSCI has indicated interest in attention to their program in this year's Annual Report. (Attachment 3; we are also querying the FBI directly about their program for Annual Report use.)

25X1 4.  We are asking the DCI Security Committee and the Community Security Group to take the lead in input for sections 2, leaks, and 3, security programs, of the Security and Counterintelligence Issues section of the Annual Report outline, as well as the response to the HPSCI task 6 on unauthorized disclosure of classified data. Obviously this division is somewhat arbitrary, and you may well have comment for these tasks as well.

25X1 5.  is responsible for producing this year's DCI Annual Report. Please identify a principal point of contact for her to work with. We shall need your overview comments for sections 1 and 4 by COB 6 November, in order to accomplish integrated drafting of the entire Annual Report in November, review in December and DCI clearance and production in January. We will need highlights on HPSCI task 2 also by 6 November, with the comprehensive report they desire in January in time to append to the HPSCI copy of the Annual Report.

MEMORANDUM FOR THE NATIONAL FOREIGN INTELLIGENCE BOARD

SUBJECT: My Annual Report

I very much appreciated the help that you and your organizations provided a year ago in the preparation of my first report as DCI on the Intelligence Community to the President and the Congress. Preparation of this year's Annual Report is now underway, and I would be grateful if you and your organizations would assist with input and/or review as requested. The staff of my Deputy for Resource Management will be in touch with you shortly on specific needs.

PERMANENT SELECT COMMITTEE  
ON INTELLIGENCE

WASHINGTON, D.C. 20515

Executive Registry

78-216/4

September 15, 1978

Honorable Stansfield Turner  
Director of Central Intelligence  
Washington, D.C. 20505

Dear Admiral Turner:

This is in further reference to your letters of March 1 and April 12, 1978 suggesting that the annual reports to be submitted to this Committee concerning intelligence and intelligence-related activities should be consolidated into one report. The structure of the Annual Report which you submit to the President could then be changed to respond to the requirements of reports requested by this Committee.

After careful consideration, the Committee agrees that it would be useful and more efficient for you to continue reporting on the activities of those organizations and programs which are part of the National Foreign Intelligence Program, while leaving to the Department of Defense the responsibility to prepare an additional report on intelligence-related activities, as well as other appropriate comments regarding intelligence activities.

In addition, the Committee recommends more detailed treatment of the intelligence activities of the Department of State and Federal Bureau of Investigation in your next report.

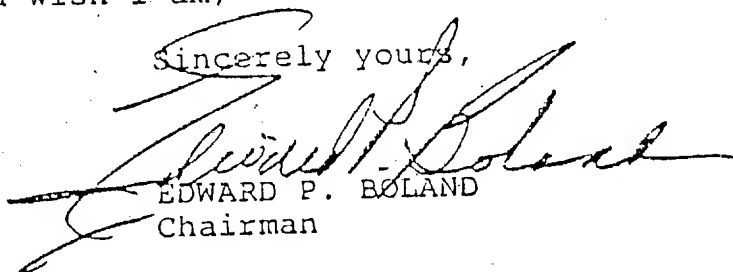

The format used in the 1977 Annual Report is acceptable for 1978 provided the additional information specified in the attachment is included or otherwise appended.

With respect to the Committee's request for an unclassified version of your report, the Committee recognizes it may be necessary to use a different approach and proposes to leave its arrangement to your judgment.

The Committee requests your assistance in providing the Annual Report prior to January 25, 1979.

With every good wish I am,

Sincerely yours,

EDWARD P. BOLAND  
Chairman

Provide:

1. Specific recommendations for legislation or appropriations to correct problem areas identified in report.

2. A comprehensive statement with specific instances of foreign intelligence activities against the intelligence community organizations and corrective action taken by the FBI, the CIA, NSA and the Military Services.

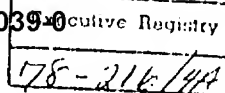

3. A list of major studies completed or on-going which impact on the National Foreign Intelligence Program or budget.

4. All agreements on cooperation between intelligence components of the U.S. Government and foreign governments or elements thereof.

5. All reports from the Attorney General to the President regarding any intelligence activities which raise questions of legality and decisions made or actions taken in response to reports from agencies within the intelligence community forwarded to the Attorney General by the Intelligence Oversight Board.

6. Identification of all unauthorized disclosures of classified information together with damage assessments and steps taken as a result, i.e., administrative, prosecution, etc.

The Honorable Edward P. Boland, Chairman  
Permanent Select Committee on Intelligence  
U.S. House of Representatives  
Washington, D. C. 20515

Dear Mr. Chairman:

Your letter of September 15, 1978, is very helpful in clarifying guidance on timing and content of my Annual Report. I will be able to accommodate the topics you specify as wanting included and/or emphasized with one probable exception--agreements on cooperation between intelligence components of the U.S. Government and foreign governments. That does not seem to me an appropriate topic for coverage in an Annual Report; accordingly my Office of Legislative Counsel will be in touch with your Staff shortly about an appropriate separate response to this request.

With respect to the other five special subjects, and the scope and content of the Annual Report generally, members of my Resource Management Staff are in touch with the Committee's Staff Director, Mr. Latimer.

With very best wishes.

Yours sincerely,

STANSFIELD TURNER
